PROFESSIONAL SUMMARY

Dedicated and results-driven Fresher MERN Stack Developer with 11 months of rigorous hands-on training and production-grade full-stack project experience. Proven expertise in building modern, responsive single-page applications with React 19, scalable RESTful APIs with Node.js and Express, secure JWT authentication, and MongoDB database management. Passionate about writing clean, maintainable code and solving real-world business problems.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Technologies: React 19, Redux, React Hooks, Vite, Tailwind CSS, Bootstrap, Responsive UI/UX

Backend & APIs: Node.js, Express.js, RESTful API Architecture, Middleware, Error Handling

Databases: MongoDB, Mongoose ORM, Aggregation Pipelines, Relational Schemas

Authentication & Security: JWT (JSON Web Tokens), bcrypt Password Hashing, Role-Based Access Control (RBAC), OTP Verification

Integrations & Tools: Razorpay Payment Gateway, Nodemailer SMTP, Git, GitHub, Postman, Swagger Docs, Linux/Bash

PRACTICAL TRAINING & EXPERIENCE

MERN Stack Developer (Comprehensive Training) — Apex Software Labs | 11 Months Hands-on

- Completed 11 months of intensive hands-on full-stack development covering modern React architecture, asynchronous Node.js backend engineering, and MongoDB schema design.
- Built real-world e-commerce, portfolio, and invoicing applications with production-grade modular architecture and clean code standards.
- Implemented secure transactional email workflows using Nodemailer and multi-factor authentication with 6-digit OTP codes.
- Integrated Razorpay payment gateway handling orders, signatures, advance bookings, and webhooks with automated reconciliation.

KEY PRODUCTION PROJECTS

1. StoreAndManage E-Commerce Platform

[\[shop.virattom.com\]](http://shop.virattom.com)

Tech: React 19, Node.js, Express, MongoDB, Tailwind CSS, Swagger API, Razorpay

- Full-stack e-commerce solution with dynamic product catalog, multi-category browsing, and cart management.
- Implemented role-based admin dashboard for inventory management, customer orders, and revenue metrics.
- Integrated Razorpay payment processing and Nodemailer for automatic order confirmation invoices.

2. ViratTom Web Engineering & Client Portal

[\[virattom.com\]](http://virattom.com)

Tech: React 19, TypeScript, Tailwind CSS, Express, MongoDB, Nodemailer Queue, PDFKit

- High-performance portfolio and client workspace showcasing services, live milestones, and invoice tracking.
- Engineered automated non-blocking email queue with IPv4 DNS caching and Gmail SMTP delivery.
- Built interactive ATS-compliant PDF resume generator with real-time editing and server-side streaming.

EDUCATION & CERTIFICATIONS

Bachelor of Technology (B.Tech)

| Graduate

- Comprehensive MERN Stack Web Development Certification
- JavaScript Data Structures & Modern Web Architecture
